

A diagram of a wallet template. It is a vertical rectangle with a yellow border. A horizontal red double-headed arrow at the top indicates a width of 124mm. A vertical red double-headed arrow on the left indicates a height of 246mm. A horizontal black line across the middle is labeled "FOLD LINE". The top half is labeled "Front" and the bottom half is labeled "BACK".

124mm

246mm

## Front

Remember to take your artwork out into and over the yellow area (bleed area). Remembering that it will be cut off by the guillotine. So all important text or logos should be at least 4mm away from the yellow area. But background artwork should cover the yellow area.

FOLD LINE

This is the back of the wallet. If you want a 'top loading' wallet then the artwork should be upside down here, remembering that the wallet is folded back on itself when glued so everything will appear correct when completed.

## BACK
